

Dear Valued Customer,

In response to the volatility in fuel prices, CPFDS has applied a fuel surcharge to your invoice for each delivery using a grid based upon the average on-highway diesel prices published by the U.S. Energy Information Administration (“EIA”). As a reminder, the EIA measures the average weekly on-highway price of diesel fuel for different areas of the country.

Effective April 1, 2024, CPFDS fuel surcharge program will be updated per the table below. The fuel surcharge will continue to be based upon diesel prices published by the EIA and the specific terms of the policy will apply as described below. These charges apply to all deliveries made on or after April 1st, 2024.

The fuel surcharge amount will be applied to each invoice based upon the below CPFDS Fuel Surcharge Grid (“Grid”). The Grid will be updated monthly by determining the weekly average on-highway diesel price for your region published by the EIA on the last Tuesday of the prior month, i.e. the September per invoice fuel surcharge amounts shown on the Grid will be set based upon the EIA weekly index as of the last Tuesday in August. To monitor diesel fuel prices in your region, simply visit the EIA website at:
